A. Overview and Schedule

Section 1. Executive Summary

Monterey County's **2018 Regional Transportation Improvement Program** reflects Transportation Agency for Monterey County (TAMC)'s dedication to improving statewide and regional travel by constructing high-priority highway, regional road, rail, and bicycle and pedestrian transportation projects throughout the region. The Transportation Agency adopts the Regional Transportation Improvement Program (RTIP) every two years for consideration by the California Transportation Commission (CTC) for inclusion in the State Transportation Improvement Program (STIP).

To further our progress in improving safety and mobility, since May 2015 the Transportation Agency has engaged in an effort to inform the public about our transportation needs, funding challenges and the self-help option. After extensive input from a wide variety of community stakeholders, TAMC adopted a Transportation Safety & Investment Plan to be funded by a 3/8% local transportation sales tax. This plan, which became Measure X on the November 8, 2016 ballot, was approved by 67.7% of Monterey County voters. The measure is anticipated to generate \$20 million annually, or \$600 million over thirty years. The revenue from Measure X funds critical safety, mobility, and maintenance projects and programs in three categories:

- \$360 million (60%) to Local Road Maintenance, Pothole Repairs & Safety
- \$160 million (27%) to Regional Road Safety & Congestion Improvements
- \$80 million (13%) to Pedestrian & Bike Safety and Mobility Projects

Building on the success of Measure X, the Transportation Agency Board of Directors held a strategic planning session in September 2017. Two key goals identified by the Board of Directors were to accelerate the delivery Measure X regional projects, while leveraging as much in matching funds as possible. With the passage of Senate Bill 1 (Beall), there are several new transportation funding programs to which TAMC can apply to match Measure X dollars, including the enhanced State Transportation Improvement Program.

To ensure efficient coordination among the various fund sources, TAMC has prepared an Integrated Funding Plan that overlaps with its **2018 Regional Transportation Improvement Program**. The Integrated Funding Plan identifies projects that are strong candidates for specific SB 1, STIP and other matching funds, and can be brought to construction over the next five years. Utilizing this Plan, the Transportation Agency can begin construction on three of the eight Measure X regional projects in the next five years:

- State Route 68 Safety & Traffic Flow
- State Route 156 Safety Improvements – Castroville Boulevard Interchange
- State Route 156 Safety Improvements – Blackie Road Extension
- Marina-Salinas Multimodal Corridor (Imjin Safety & Traffic Flow)

Also, under this plan an additional Measure X project will become construction-ready:

- US 101 – South County improvements
