

2018 Monterey County Active Transportation Plan

EXECUTIVE SUMMARY

The 2018 Transportation Agency for Monterey County Active Transportation Plan is an update of the 2011 Bicycle and Pedestrian Master Plan, which identified all existing and proposed bicycle and pedestrian facilities in Monterey County. This Plan identifies remaining gaps in the bicycle and pedestrian network and opportunity areas for innovative bicycle facility design. This Plan will be used to pursue grant funding and effectively use Monterey County's Measure X investments to ensure that planned street improvements include bicycle and pedestrian improvements.

New to this update is the inclusion of protected bike lanes. Caltrans added them to their numbering scheme as Class 4 facilities.

- Class 1 – Bike Path: separate from the road
- Class 2 – Bike Lane: painted strip to the right of mixed vehicle flow lanes
- Class 3 – Bike Routes: Signed shared facilities & sharrows
- Class 4 – Protected Bike Lanes

Protected bike lanes use curbs, planters, parked cars, or posts to separate bike and auto traffic on busy streets, and have been shown to be much more effective than conventional bike lanes. They make cycling safer, improve adjacent walking facilities, and help calm vehicle traffic.

Nationally, since the 2011 version of this plan, added emphasis has been placed on “low-stress networks” that serve people of all ages and abilities. In addition to separate bike paths and protected bike lanes, other examples of low-

stress facilities include bicycle boulevards, and bike protection at intersections. Communities who have implemented a connected network of low-stress bike facilities have experienced significant increases in cycling.

Organization of the Plan

This Plan is organized to meet the State guidelines for Active Transportation Plans:

Chapter 1. Introduction: Gives an overview of the current bicycle and pedestrian mode shares, sets the Plan vision, goals, objectives and policies, and explains the community engagement activities utilized to develop this Plan.

Chapter 2. Existing Conditions: Describes existing land use, County demographics, infrastructure and bike/pedestrian safety statistics.

Chapter 3. Active Transportation Plans & Programs: Reviews existing plans and programs that support biking and walking in the County.

Chapter 4. Best Practices & Benefits of Active Transportation: Outlines innovative designs, and the public health, economic and environmental benefits of biking and walking.

Chapter 5. Recommended Projects: Provides, for each jurisdiction, a demographic profile, safety analysis and recommended improvements.

Chapter 6. Funding & Implementation: Reviews information about available project funding and outlines the Plan's implementation strategy.

2018 Monterey County Active Transportation Plan

Vision & Goals

Vision: Active transportation will be an integral, convenient and safe part of daily life in Monterey County for residents and visitors of all ages and abilities.

Children at the 2015 Ciclovía Salinas

To pursue this vision, this Plan emphasizes planning, designing and building bicycle and pedestrian facilities that will be used by people of all ages and abilities.

These Plan goals support this vision:

- **Active Transportation Trips:** Increase the proportion of trips accomplished by biking and walking throughout Monterey County.
- **Safety:** Improve bicycle and pedestrian safety.
- **Connectivity:** Remove gaps and enhance bicycle and pedestrian network connectivity.
- **Equity:** Provide improved bicycle and pedestrian access to diverse areas and populations in Monterey County via public engagement, program delivery and capital investment.

- **Education:** Increase awareness of the environmental and public health benefits of bicycling and walking for transportation and recreation.
- **Quality Facilities:** Improve the quality of the bike and pedestrian network through innovative design and maintenance of existing facilities.

Recommended Projects & Prioritization

Currently, there are approximately 221 miles of bikeways throughout Monterey County. The proposed bikeway and pedestrian projects included in this Plan come from:

- Projects identified in the 2011 Bicycle and Pedestrian Master Plan that have not been implemented;
- Local planning documents; and,
- Public comments received during the development of this Plan.

594.4 miles of additional bikeways improvements were identified in this Plan, including 27 miles of Class 4 protected bike lanes. Regional projects, such as the Fort Ord Regional Trail and Greenway proposed route is included in the Plan; however, that project is not ranked in this Plan.

Proposed Bikeway Improvements

Bikeway Types	Miles
Class 1 - bike/ped path	26.3
Class 2 - bike lanes	286.0
Class 3 - bike route /sharrows	255.1
Class 4 - protected bike lanes	26.0
TOTAL	593.4

2018 Monterey County Active Transportation Plan

Staff conducted an extensive analysis to identify high priority bikeway projects, utilizing project ranking criteria that reflects Plan goals and corresponds to the State Active Transportation Program criteria. The scoring criteria also reflect input from the Bicycle and Pedestrian Committee and the Technical Advisory Committee, and are as follows:

- Safety (20 points)
- Connectivity (20 points)
- Comfort (20 points)
- Active Transportation Trips (Demand: 15 points)
- Equity (10 points)
- Complete Streets Opportunity projects (10 points)
- Quality Facilities (5 points)

Projects may be sorted by these categories; for example, the project lists can be sorted by safety based on the safety score. Following the prioritization, and consultation with local public works staff, the projects listed in **Table 1** are the top three high-priority projects for each city and the County of Monterey. **Table 2** summarizes the projects that will be developed into conceptual designs. The intent of developing conceptual designs is to make these projects more competitive for grant funding and advance these projects into development and implementation.

Pedestrian Improvements

Type	Quantity
Sidewalk	7.3 miles
Pedestrian Intersection Improvement	30 locations
guardrail improvements	1.3 miles

While sidewalks are largely contiguous throughout most of the urbanized Monterey County communities, many sidewalk gaps were identified in Castroville, Chualar, San Lucas, and San Ardo. Pedestrian intersection improvements were identified throughout the County. Staff did not rank the pedestrian projects.

Implementation & Funding

The implementation of the projects in this Plan will occur over time as funding becomes available. The ability for local jurisdictions to leverage regional and state grant funding will be crucial for project implementation. That said, many of the safety and complete streets projects can be installed as part of regularly-scheduled street and road maintenance improvements.

There are two main funding sources that local cities and Monterey County can use to implement the active transportation improvements in this Plan: Measure X funds (both local and safe routes), State Active Transportation Program, and California Senate Bill 1 funds.
